

BAL-4'S POOL SAFETY TIPS

Drowning is a leading, but preventable, cause of death for children under the age of five. Follow these basic water safety tips in and around pools and spas.

- Never go in the water alone. Make sure an adult and/or parent is present.
- Learn how to swim; it's fun and good exercise.
- Do not play or swim near drains, pipes and other openings in pools and spas.
- If you see a broken, loose or missing drain cover, notify a Lifeguard or Management.
- Do not unlock a locked gate to get into the pool or spa area.
- Have a phone close by at all times.
